

Cubby and Adventure Camp Topics

11/23 Migration Vacation – Animals sometimes have to travel long distance because of season climate changes, or in search for more food or water, or even to avoid predators. Come find out how and why some of the biggest animals in Africa have to migrate across the Savannah.

11/24 Feast for a Wildebeest - If animals could prepare a feast, what would it look like? There probably wouldn't be any pumpkin pie or mashed potatoes. Come and find out what some of our animals would have at their favorite dinner table feast.

11/25 Savannah Scavenger Hunt - Come Explore our new African Savannah as we head out to our new exhibit scavenge for clues and information about our Savannah friends.

12/21 Savannah Sunset - The winter solstice marks the shortest day and the longest night of the year. So what better day to learn about the animals that rule the night in the African savannah. Come and learn about some nocturnal creatures and their night time behaviors.

12/22 Amazing Architecture - As we wrapped up our own construction this year at the zoo, lets come and explore the really amazing ways animals build and construct their own homes.

12/23 Zoo Keeper - What does a wheelbarrow, scuba gear, a whistle, and a hose all have in common? They are all things that a Zookeepers might need in their day to day job taking care of and cleaning up after animals. From prepping food and cleaning to training and enrichment, come and learn what it takes to be a zookeeper for a day.

12/28 Oceans - Explore the ocean with a special focus on seals and sea lions: the beautiful, curious hunters of the seas.

12/29 Camouflage - Look high and low, near and far. These animals are masters of camouflage and disguise! Discover animal tricks for hiding out and put your knowledge to work as we head out to spot some spots.

12/30 Savannah Scavenger Hunt - Come Explore our new African Savannah as we head out to our new exhibit scavenge for clues and information about our Savannah friends.

12/31 Dr Zoo - Animals all have basic needs; food, water, shelter, and sometimes they also need medical attention. Come be a vet for a day and talk to a real zoo veterinarian and get to go behind the scenes at the hospital to see how our animal care staff help animals that are sick or injured.

1/4 Elegant Elephants - Even though the elephant is the largest land mammal, they are still very elegant and such fascinating animals. Come and explore our African savannah in search of these amazing creatures.

1/5 The Real Recyclers - We all need to do our part to help the earth by recycling but did you know that there are animals that have been recycling long before we ever started. Come find out about animal recyclers and decomposers, and even make a recycled craft project to take home.

1/6 Dr Zoo - Animals all have basic needs; food, water, shelter, and sometimes they also need medical attention. Come be a vet for a day and talk to a real zoo veterinarian and get to go behind the scenes at the hospital to see how our animal care staff help animals that are sick or injured.

1/7 Zoo Keeper - What does a wheelbarrow, scuba gear, a whistle, and a hose all have in common? They are all things that a Zookeepers might need in their day to day job taking care of and cleaning up after animals. From prepping food and cleaning to training and enrichment, come and learn what it takes to be a zookeeper for a day.

1/8 Savannah Scavenger Hunt - Come Explore our new African Savannah as we head out to our new exhibit scavenge for clues and information about our Savannah friends.
